EXPERIENCE

Correlation One

2022 – 2023 Data Science for All- Empowerment

- Participated in a 14-week data science fellowship program, including acquiring various skillsets such as data wrangling and feature engineering augmented by real-world business datasets.

East Carolina University

2021-2023 Graduate Research Assistant

- Conducted qualitative data coding and analysis from focused group discussions of compound flooding stakeholders to develop common themes and disaster recovery challenges.
- Conducted various geospatial data analyses, including hotspot analysis, to understand the spatial distribution of hog farms to determine flood vulnerability.
- Reviewed literature to understand structural and non-structural mitigating measures to compound flooding.
- Geocoded spatial coordinates of agricultural facilities to identify spatial relationships
- Collaborated with primary investigators to publish the results of the analyzed stakeholders’ dataset

Metronome Consults & Services Limited.

2020-2021 GIS Analyst II

- Georeferenced aerial imageries for data extraction and geodatabase development.
- Developed parcel information system in a geodatabase.
- Worked closely with field data collectors to update ground truthing observed data into a geodatabase

Kings’ Meridian Survey.

2016-2017 Urban Planner/Cartographer

- Designed neighborhood layouts and site plans for clients
- Carried out environmental impact assessments for proposed physical development.
